👤 PROFILE

Highly skilled and innovative website developer with 2 years of experience in designing and developing dynamic and visually appealing websites. Proficient in front-end and back-end technologies, I possess a strong foundation in HTML, CSS, JavaScript, and PHP, as well as expertise in content management systems (CMS) like WordPress. I have a proven track record of delivering high quality websites that exceed client expectations while adhering to best practices and industry standards. Committed to staying updated with the latest web development trends and continuously expanding my skill set. Exceptional problem-solving abilities and a passion for creating seamless user experiences. Looking to leverage my expertise to contribute to cutting-edge web projects

💼 WORK EXPERIENCE

RT GROUP
Website developer
6 Sept. (2023) - Feb. (2024).

- I joined Rt Group as an intern and started my website development career with designing the new website for the company which is Rtinstitute.online and Rtshashtra.online After completing the internship I got promoted to the position of website developer. As a website developer at RT GROUP my work responsibilities encompass a wide range of crucial tasks. I am primarily responsible for leading the website development team, overseeing the design and implementation of innovative and user-friendly websites. My role involves conducting thorough testing and debugging to maintain high-quality standards and resolve any issues promptly. Ultimately, my expertise and experience contribute to creating seamless and visually appealing websites that effectively meet the needs of online education student.

ABS CONNECTIONS
Website Developer
8 March(2024) - May (2025).

- In Abs Connections, I develop and manages caligoodsinc.com and Luzidworld.com ecommerce websites for the company. Once the designs are finalized and approved, I transition to the development phase. Here, I transform the static Figma designs into fully functional ecommerce websites. Writing HTML, CSS, and JavaScript code to bring the designs to life. You ensure that the website is responsive, meaning it adapts to different screen sizes and devices. Setting up the website's backend, which may involve creating databases, configuring servers, and integrating with content management systems (CMS)

Brand2Clinte
16 June 2025 - present.

WebsiteAndWordpress Deve

- At Brand2Clint, I developed and managed company websites while creating and customizing new websites based on client requirements. I worked with both new and existing clients to deliver tailored solutions. In addition, I ensured websites were fully responsive, optimized for speed, and maintained strong SEO performance to improve visibility and user experience.
